# Acknowledgement

The success and final outcome of the "**Breast CancerSense AI**" project required a great deal of guidance and assistance from many individuals, and I am deeply grateful for all the support I received throughout the completion of this project. I would like to extend my heartfelt thanks to everyone who played a part in making this project possible.

First and foremost, I sincerely thank our Director, **Dr. Vishal Wadajkar**, and our Head of Department, **Dr. Shikha Dubey**. Their vision, encouragement, and unwavering support provided me with the necessary environment and resources to carry out this project. I am extremely grateful for their guidance and the opportunities they afforded me.

I owe a special gratitude to my project guide, **Mr. Prasad Shaha**, for his invaluable insights, expertise, and continuous support. His mentorship was instrumental in guiding me through the complexities of the project, and his encouragement kept me motivated throughout the journey.

I am also deeply appreciative of the entire teaching staff, whose constant encouragement, support, and advice were crucial to the successful completion of my project. Their dedication to my education and their willingness to assist me whenever needed did not go unnoticed.

Additionally, I would like to extend my sincere thanks to the staff in the laboratory for their timely support and assistance. Their help was invaluable in ensuring that I had the resources and technical support necessary to bring my project to fruition.

Finally, I am thankful to my peers and everyone else who contributed directly or indirectly to this project. Your support, feedback, and encouragement have been vital in helping me achieve my goals.

This project is a testament to the collaborative spirit and dedication of everyone involved. I am profoundly grateful for the collective effort and guidance that helped me navigate this journey and achieve my objectives.
